

Elements of 2003 Wisconsin Act 276 relating to the Green Tier Advisors:

Section 299.83 (8)(b) Wis. Stats. calls for the department to consult with interested persons to identify aspects of superior environmental performance that the department will use to identify which letters of intent it will process.

Section 299.83 (8)(i) Wis. Stats. requires the department to implement a process to obtain advice from a balanced public group about all of the following:

1. Implementation and operation of the program, including the setting of goals and priorities
2. Evaluating program costs for applying and participating as well as administrative costs
3. Assessing whether incentives provided under a participation contract are proportional to the environmental benefits
4. Procedures for evaluating the program and the results of the program
5. Changes that should be made to the program
